

GCSE MARKING SCHEME

AUTUMN 2021

**GCSE
MATHEMATICS – NUMERACY
UNIT 2 – HIGHER TIER
3310U60-1**

INTRODUCTION

This marking scheme was used by WJEC for the 2021 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

<p>3. (To spend on \$) OR (Convert to \$)</p> $\begin{array}{l} 13/20 \times 500 \\ = (\pounds) 325 \end{array} \quad \begin{array}{l} 500 \times 1.36 \\ = (\$) 680 \end{array}$ <p>(Buying \$) $13/20 \times 500 \times 1.36$ (\$) 442</p> <p>(As lowest note \$5 can only buy) (\$) 440</p> <p>(This will cost) $440 \div 1.36$ or $13/20 \times 500 - (442 - 440) \div 1.36$ or $325 - 2 \div 1.36$</p> <p>(£) 323.53 or (£)323.52(9...)</p> <p>(Money left to buy euros $500 - 323.53$) (£)176.47</p>	<p>M1 A1</p> <p>M1 A1</p> <p>B1</p> <p>M1</p> <p>A1</p> <p>A1</p>	<p>May be embedded in further calculation</p> <p>FT 'their incorrectly evaluated $13/20 \times 500$'</p> <p>Allow equivalent given unambiguously in possible notes FT 'their derived 442' rounded down to the nearest multiple of 5 If (\$)442 in the answer space, only award if clearly showing 'buying \$440'</p> <p>FT 'their derived 442' and 'their derived 440' provided it is a multiple of 5</p> <p>FT provided to the nearest penny Do not FT from incorrect rounding of 'their £323.52(9...)'
